

LOVE-BOX CONDOMS

After a night of raucous festive fanfare, the last thing you need is a morning-after shock. That's why you need rubber. And the folks at Love-Box have even gone the extra mile to design a set of cool cases to hold your protection.

If you want sensitivity, choose the extra thin Funky Impression; if you're clumsy, opt for the extra thick Urban Freedom; and for extra stimulation, select the ribbed and dotted Energetic Sensation series. From convenience stores, pharmacies and supermarts.

ART DIRECTION: JERALD ANG
